

District PD MATH COACHES PACKAGE

Recommended For

Schools and districts looking to support individuals or teams that are new to leadership in mathematics.

Package Description

This series of workshops is designed to help math coaches investigate how to provide optimal learning opportunities for students while supporting teachers in their instruction. Participants will utilize coaching skills and the coaching cycle while connecting standards and teaching to opportunities and outcomes for each and every student. Coaches will build their repertoire of coaching strategies with the goal of developing mathematically proficient students.

Agenda

Day 1 (full day)

- ▶ Essential Capacities and Skills for High Performing Leaders
- ▶ Leading for Mathematical Proficiency

Day 2 (full day)
