

District PD SECONDARY MATH SUPPORT PACKAGE

Recommended For

Schools and districts looking to build a professional learning community, develop common language and goals, and examine instructional practices and frameworks.

Package Description

Participants will engage in goal setting and planning throughout a school year in an effort to improve classroom instruction.

Current instructional practices and frameworks will be examined and evaluated. The Standards for Mathematical Practice will be explored and two Shifts in Teaching Practices will be discussed: cognitive demand of tasks and discourse. Ongoing goal check-ins and reflection are a part of the process.

Agenda

Day 1 (full day)

- ▶ Examining Beliefs about Mathematics Teaching and Learning
- ▶ Overview of WI Math Standards and Instructional Shifts
- ▶ Develop School/District Goals

Day 2 (full day)

- ▶ Goal Check-In
